MR.MEN LITTLE MISS

We are delighted to welcome the U.K.'s most loved cartoon characters into our bisque range!

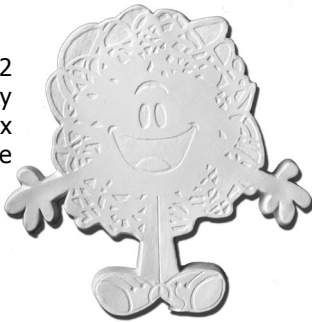

The Mr Men are one of the country's most recognised and best loved children's brand. Generations of grown-ups will instantly recognise these enduring characters from reading and being read the books in our childhood. With recent original television cartoon series being broadcast, the brand has fresh interest from the kids of today, and who can say we ever left the Mr Men behind as we grew up!? Take a look on the high street and you will see how a brand like this is successfully selling across multiple generations. This is the perfect product to add to your studio, sure to attract more of your key customers.

Each one of these bisque pieces has been carefully designed to extremely high standards and comes with a discreet metal hook embedded in the reverse of each piece, allowing them to be decorated and hung on the wall as colourful, fun and perfectly collectable projects. Decorate Mr Happy this week, come back next week and decorate Mr Strong. Alternatively each piece can be used as a coaster, either by the painter or given as a fun gift, choosing the character which you think best represents the characteristics of the owner! Make a Mr Bump for a friend who has had an accident, Mr Happy for somebody who is celebrating an event, maybe Mr Grumpy, given ironically to a loved one, Little Miss Naughty, Mr Strong, Little Miss Daredevil, and more, surely there is a character here for everyone!

A few ideas to get you started:

- Arrange Mr Men themed Children's parties, allow each child to choose and decorate their favourite character, go the extra mile and furnish the party space with other 'Mr Men' product, tablecloth, cups, poster, etc. Why not incorporate a reading of one of the Mr Men stories, making the activity a real event to remember!
- Advertise these exclusive products on your website and see your web traffic go through the roof!
- Consider hosting a corporate 'team building' event based on these pieces. Each delegate chooses a piece that best represents their personality, or (if you dare!) get them to decorate a piece for a colleague!
- Give Mr Messy to a very young child and let them go crazy with colour. When finished, simply paint in the mouth and eyes for a completely original and very relevant 'messy' Mr Messy!
- Or, simply add them to your bisque selection, and let your customers show you just how popular these pieces really are!!

Don't miss out on this innovative new opportunity for our industry, be one of the first studios in your area to stock these sensational new products. Order yours today!
